DETAILED ACTION

This is responsive to Applicant's amendment filed on 12/1/06.

Response to Arguments

Applicant's arguments, filed 12/1/06, with respect to the rejection(s) of claim(s) 1 and 16 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Botelho et al [USPAT 6,222,969].

Examiner notes that claims 2, 3, 17-20 were withdrawn in the previous amendment, therefore, claims 2, 3, 17-20 were not considered for examination purposes in this Office action. Claims 2, 3, 17-20 however will be rejoined and considered when the corresponding independent claim is allowable.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000.

Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1, 16, and 21 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Botelho et al [USPAT 6,222,969].

Botelho et al disclose an optical fiber tape core comprising:

an optical fiber core assembly with plural optical fiber cores two-dimensionally arranged in parallel with each other [see front drawing]; and a coating layer formed of silicone rubber [abstract] and arranged on at least one side of said optical fiber core assembly, said silicone rubber forming said coating layer and said plural optical fiber cores do not intersect each other at any location along said plural optical fiber cores.

In re claim 16, Botelho et al show all the claimed method steps with the structural limitations as discussed above. Botelho et al especially show in fig. 2C the exposed optical fibers 44.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
